

Application No. 10/803,138
Amendment dated November 1, 2005
Reply to Office Action of August 1, 2005

AMENDMENTS TO THE SPECIFICATION

Please replace the Abstract of the Disclosure with the following replacement paragraph:

— The cheek and lip retractor for dentistry comprises respective cheek portions and lip portions for the upper and lower lip, ~~said the~~ lip portions comprising a lip shield and mucosa pads which are separate and spaced apart from ~~said the~~ lip shield, ~~said the~~ cheek portions and lip portions being connected to each other by flexible connecting elements, and ~~said the~~ connecting elements being disposed between ~~said the~~ lip shield and ~~said the~~ mucosa pad. Such a retractor allows a largely free treatment of the tooth portions to be treated and provides a comfortable fit for the patient. —
